NEWSLETTER – 15th March 2014

Dear Residents of SVE,

Garden service

In spite of all the rain, our garden service, Army Ants, has managed, on the whole, to keep to its schedule. Attached is a copy of the roster which indicates which day your lawn will be mowed.

Garden gates

There has been some delay in fitting the gates because of the rain, but all is proceeding as fast as possible. If you wish to view what has been done so far, take a stroll in the upper left section of the complex (coming in). Please get into the habit of closing your new gates!

Maintenance

You will also have been aware of work being done on drainage and roofs which took a bit of a beating in the extremely rainy conditions. Targets have been set to deal with the problem.

Please note that any complaints and enquiries should be directed to Nicolene, our Managing Agent. (details above)

Peter will be retiring from his post at SVE. He will be available in the future to do private projects for residents. Further information will be provided in due course.

Owner's please remember to share important information from Newsletters with your tenants.

Kind Regards,

SVE Management
